Farmers' Market Market Friend	2023

Required Field

Company Name

All Business profiles must have a company name to be saved. The full Company Name is the unique identifier for businesses and will determine if imports update the record or create a new record.

The Business Profile contains a number of optional default fields that data can be added to (via import or manual entry). Some of the most important for reporting purposes are:

- In District (checking this box will include the business in your reporting statistics)
- Opened Date (allows you to have new businesses calculated correctly)
- Closed Date (for businesses who have closed)

- Relocated Out Date (for businesses who remain in operation but are now outside the district)
- Employees (Full Time, Part Time, Seasonal)

Property Address

Only businesses within your geographic service area (district) should be connected to a property. Other businesses should utilize the Mailing Address section.

Businesses within your service area that have an alternate mailing address (PO Box, etc) should also utilize the Mailing Address section.
